

COMPANY PROFILE

Xhealth Products Ltd

A dermatological pharmaceuticals house

Xhealth Products develops and supplies pharmaceutical products for dermatological, topical and transdermal use. Our portfolio is built around practical patient needs: effective local delivery, tolerable long-term use, and formats that fit real everyday treatment routines.

We combine advanced pharmaceutical technology with skin science to design formulations that deliver visible, long-lasting results while respecting skin health. The company is deliberately narrow — we take actives already known to work and build them into vehicles that finally let them reach the tissue that needs them.

CORE BUSINESS & CAPABILITIES

What we do, and how.

We develop, formulate, in-license and distribute dermatological pharmaceutical products. Our core strength is turning established pharmaceutical actives into optimised local products through vehicle selection, penetration enhancement and tolerability design.

A · Topical platforms	Foam · gel · cream · spray · lacquer · film — six vehicle chassis, each tuned for a specific tissue target.
B · Skin & scalp delivery	Targeted application, rapid drying, good spreadability and reduced daily treatment burden (minoxidil foam, finasteride scalp spray).
C · Therapeutic breadth	Androgenetic alopecia, hyperpigmentation, acne, scars, tinea, onychomycosis, haemorrhoids, superficial vascular discomfort and selected men's health.
D · Patient-centred formats	Non-greasy foams, precise sprays, elegant creams, durable nail lacquers and gel systems designed to sit on skin as a comfortable protective layer.

PRODUCT AREAS

Where our portfolio is active.

Hair & scalp · Antifungal & onychomycosis · Anorectal · Hyperpigmentation · Scar management · Acne · Superficial vascular · Men's health · Wart care

PRODUCT PORTFOLIO — FULL LISTING

Twelve marketed products across nine areas.

01

Xcare® Minoxidil Cutaneous Foam 5%

HAIR

Rx · Foam vehicle · 2% + 5%

A clinically proven topical for androgenetic alopecia — a lightweight, fast-drying foam vehicle that delivers minoxidil to the follicle without propylene glycol.

02

Dr Giles® ONCE Terbinafine 1% Polymer Gel

ANTIFUNGAL

OTC · Polymer gel · Single-application

One application. Full course. A film-forming polymer gel that releases terbinafine over seven days for the treatment of athlete's foot (tinea pedis) — squalene epoxidase inhibition, patient-friendly compliance.

03

Proctrelief® Triple-Action Cream

ANORECTAL

Rx · Triple-action · Beclomethasone / Phenylephrine / Lignocaine

A single topical formulation combining an anti-inflammatory corticosteroid, a vasoconstrictor and a fast-acting local anaesthetic, for the symptomatic relief of haemorrhoids and associated anorectal conditions.

04

Skinoro® Hydroquinone 2%

PIGMENT

Rx · Depigmenting cream · Hydroquinone 2%

A dermatologist-recommended topical depigmenting cream for the gradual, controlled lightening of dark patches — melasma, chloasma, freckles, age spots and post-inflammatory hyperpigmentation.

05

DeScars® Scar Care Gel

SCAR

OTC · Multi-action gel · Extr. Cepea / Heparin Sodium / Allantoin

A clinically-supported combination gel for hypertrophic scars, keloids, surgical scars, burn scars and acne scars — reducing redness, itch, tension, thickness and discolouration.

06

XGainTM Finasteride Scalp Spray

HAIR

Rx · Cutaneous spray · Finasteride 2.275 mg/ml

Topical finasteride delivered precisely to the affected scalp — 5-alpha reductase inhibition where hair is falling, with markedly reduced systemic exposure compared to oral therapy.

07

Versani® Amorolfine Nail Lacquer

ANTIFUNGAL

Rx · Medicated nail lacquer · Amorolfine 5%

A once-weekly medicated lacquer that forms a durable, waterproof film across the nail plate, releasing amorolfine into the nail bed for the treatment of onychomycosis.

08

Versani® Benzoyl Peroxide Gel 5%**ACNE**

OTC · Antibacterial gel · Benzoyl Peroxide 5%

A resistance-neutral topical antibacterial for mild-to-moderate inflammatory acne, with mild pore exfoliation. Visible improvement at four weeks, optimal at 8–12 weeks.

09

Skinoro® FHT Cream**PIGMENT**

Rx · Triple combination · Fluocinolone 0.01% · Hydroquinone 4% · Tretinoin 0.05%

Prescription-strength triple combination for moderate-to-severe facial melasma. Melanogenesis inhibition, anti-inflammatory calm, and retinoid-mediated cell turnover in one vehicle.

10

Hirudiox® MPS Cream / Gel**VASCULAR**

OTC · Heparinoid · Mucopolysaccharide Polysulfate 0.445%

A heparinoid topical for superficial vascular and soft-tissue conditions: bruising, superficial thrombophlebitis, sports contusions, varicose discomfort, and dry, ageing skin.

11

LibiDUO® Desensitising Spray**MEN'S HEALTH**

OTC · Cutaneous spray · Lidocaine + Prilocaine eutectic

A fast-onset topical anaesthetic spray for the management of premature ejaculation — a eutectic lidocaine/prilocaine mixture that significantly increases IELT within minutes, without excessive numbness.

12

Dr. Yglo® Wart & Verruca Freeze Treatment**WART CARE**

OTC · Cryotherapy · Home freeze treatment

A clinically tested, state-of-the-art home cryotherapy that instantly freezes warts and verrucas to the core with optimal contact time. Results in 10–14 days after just one application.

REGULATORY NOTE

Products listed are marketed under the relevant authorisations in their respective territories. Some are prescription-only (Rx) and must be used under the supervision of a qualified healthcare professional; others are available over the counter (OTC). This document is for professional and business-to-business information only and is not intended as medical advice, diagnosis or treatment. Always refer to the local product leaflet and consult a healthcare professional.
